

All On Me (CAPO 2)

Em (F#m)
You won't hear too much
About what's going on with me
I got no desire to disturb another's peace
A (B)
I don't say a lot
 Em (F#m)
And that's all on me

There's a shade of lonely
in every bit of grief
Acting like you got it figured out
Is the closest you get to peace
The closest you'll get to peace:
That's all on me

C (D) G (A)
Hey, you shouldn't pray for change
D (E)
Things may look different
 Em (F#m)
Even if they stay the same
C (D) G or B9 (A or C#9) Em (F#m)
Hey, maybe it's the way it's gotta be

I keep looking for a reason
In exchange for sanity.
I keep hoping
For an easy answer to all these things
But there ain't no bigger plot;
It's all on me There's the person that you
wish you were
But then there's all the things you have to
do
A million careless decisions
Are the building blocks of you
And then they tell us that we're free
And that's all on me

Hey - it'll strip you to a man
You can watch it fall apart
While you do everything you can

Hey, it's all on me

D A
If you need something done,
 Em
Do it for yourself
D
No use standing around,
 C#7 B7 Em
Waiting on somebody else
