

- All On Me -

You won't hear too much
About what's going on with me
I got no desire to disturb another's peace
I don't say a lot
And that's all on me

There's a shade of lonely
in every bit of grief
Acting like you got it figured out
Is the closest you get to peace
The closest you'll get to peace:
That's all on me

Hey, you shouldn't pray for change
Things may look different
Even if they stay the same
Hey, maybe it's the way it's gotta be

I keep looking for a reason
In exchange for sanity.
I keep hoping
For an easy answer to all these things
But there ain't no bigger plot;
It's all on me

There's the person that you wish you were
But then there's all the things you have to do
A million careless decisions
Are the building blocks of you
And then they tell us that we're free
And that's all on me

Hey - it'll strip you to a man
You can watch it all fall apart
While you do everything you can
Hey, it's all on me

If you need something done,
Do it for yourself
No use standing around,
Waiting on somebody else
