

- Uncomfortable Begun -

Straight uncomfortable begun
Thinking of the times when our needs were young
Sitting by the side of the road
It's hard to work the pedals with your feet so cold
On the road
On the road

We've come this far
But need can't take me where you are
The moments never add up, there's no winning that way
The effort we put into youth just turned us old and gray

Anyway

In between you and I,
It's between you and I
